### NFL Draft By Junior Prescod

The 75<sup>th</sup> Annual NFL Draft was held April 28-30. The NFL Draft started in 1936 because there was no well-defined order for where players should go. Before the draft, players could sign with any team they wanted, which typically helped the stronger teams.

The Carolina Panthers had the number one draft pick. Their choice was QB Cam Newton from Auburn University. The second draft choice was LB Von Miller from Texas A&M University who was selected by the Denver Broncos. The Buffalo Bills had the third selection and chose DT Marcell Dareus from Alabama University. The Cincinnati Bengals chose WR

A.J. Green from Georgia with the fourth pick. To round out the top five draft picks, the Arizona Cardinals selected CB Patrick Peterson from LSU. In all, there were 224 players selected in the 2011 NFL Draft.

## Move Your Body

By Savonte Robinson-Brown

Beyonce has created a new exercise video called *Move Your Body*. For the national Let's Move! Campaign. She joined forces with First Lady, Michelle Obama. They

want the kids to be fit instead of being fat. The video will be distributed to junior high school students across the country. The video teaches youth how to eat healthier and move their bodies to burn calories. Beyonce's goal for making the video was to make exercise fun through dancing.

The video features the running man, dougie, and pop and lock dance grooves which will get your heart pumping!

*Have a great summer everyone! Thanks for reading and supporting our newspaper this year.*

## West Nile Virus

By Junior Prescod & Khaleel Gibbs

The West Nile Virus is an infection spread by mosquitoes. It came from the West Nile District of Uganada and first appeared in North America in 1999.

Symptoms of the virus are muscle aches, nausea, rashes, sore throats, swollen lymph nodes and vomiting. These symptoms usually last for 3-6 days. If it gets more severe it can be life threatening. Some more severe symptoms

are: confusion, loss of consciousness or a coma, muscle weakness, stiff neck, and weakness of one arm or leg. Some treatments to West Nile Virus are: bed rest, lots of fluids, and acetaminophen/Tylenol.
